

West Lincoln Appeal Fund Against Industrial Wind Turbines

Why Donate?

- Five 50 storey high Industrial Wind Turbines have been operating in West Lincoln since June 14, 2014. This Vineland Power Inc. HAF Project is between Twenty Road and 5th Concession Rd., Westbrook Road to Abingdon Road. There are 259 homes within a 2 km. radius impact zone of these 5 IWT's.
- **Real Health Complaints are known now from people living up to 5 km. away from these turbines: Tinnitus, vertigo, migraine headaches, nausea, palpitations, sleep deprivation, stress & anxiety.**
- **Strikingly, the same negative health impacts are reported by people living around large Wind Turbines at many sites in many countries around the World.**
- **Observations of people reporting negative health impacts are supported by many scientific studies**
- 77 more of the LARGEST WIND TURBINES IN NORTH AMERICA were approved from Smithville to Lake Erie, 44 of which will be in West Lincoln within 2 km of 1692 homes. 1160 victims can expect to suffer health impacts.
- To protect personal property asset values from the typical 30 to 40% property devaluation due to IWT's. (i.e. \$300,000 house x 30% devaluation) = **\$90,000 loss per property.** Some properties are worthless.
- To preserve the spirit and values of our community from typical social disintegration and injustices as witnessed in communities worldwide where IWTs have pit neighbour against neighbour, family against family.
- To protect the peace, quiet and natural environment of rural West Lincoln and the Niagara Peninsula.
- To halt our spiralling electricity bills paying exorbitant subsidies to proponents and for losses on cheap sales of excess power to the USA, Quebec, and Manitoba.

Help us to Help You by Funding our Cause:

- The MOE Renewable Energy Approval (REA) of HAF in 2013 was Amended in 2014 and Appealed by WLGWAG Inc. again. Another Environmental Review Tribunal (ERT) Hearing was held in September.
- The ERT Decision was rendered on December 23, 2014. Our case was dismissed without costs. The HAF Wind Project could be appealed to the Court system for a Judicial Review or an Appeal of the Director's Decisions.
- To retain legal counsel for preparation and representation in Court to stop the HAF Wind Project.
- To continue with legal counsel in the Constitutional Challenge of the Green Energy Act against our Charter of Rights and Freedoms, our very Democracy, all the way to the Supreme Court/Canada.
- To insure the Directors of WLGWAG Inc. against severe cost assessments while protecting you.
- To enable expert witnesses to be hired for our Defence Team.

FUNDRAISING GOAL - \$150,000 (if necessary) (each appeal)

Example: 300 household donations @ \$500.00 ea.

DONATION / PLEDGE FORM

1.) I (We) hereby make a donation in the amount of: (Check the box) \$500 or Other amount of \$ _____

2.) OR – I (We) Pledge make a donation in the amount of: (Check the box) \$500 or Other amount of \$ _____

_____ by (date) __ / __ / 2015

to WLGWAG Incorporated, P. O. Box 391, Smithville, ON, L0R 2A0.

Name: (Print) _____ (Sign) _____

Address: _____
